

INDIANA YOUTH SURVEY

Survey of Alcohol, Tobacco, and Other Drug Use

Serving Indiana schools and communities since 1991

Interested in the Indiana Youth Survey (INYS)?

Participation is **FREE** in even-numbered years, and schools will receive critical information for monitoring student substance use, mental health issues, gambling, and other factors that threaten to undermine student success.

INDIANA UNIVERSITY
BLOOMINGTON

ALL SCHOOLS ARE INVITED TO PARTICIPATE

The Indiana Division of Mental Health and Addiction provides funding that allows all schools in Indiana to participate in the INYS in **even-numbered years** for free (Previously, the survey had been funded annually).

The INYS uses random sampling techniques to generate representative data on the statewide level. Schools not chosen in the random sample **ARE STILL WELCOME** to participate.

If your school would like to administer the survey in an odd-numbered year, **for a fee**, please send an email to INYS@indiana.edu.

ABOUT THE SURVEY

- The INYS is a self-reported adolescent survey that assesses factors related to student success.
- Indiana schools can conduct the INYS for free during the spring semester of the 2023-2024 school year with 6th-12th grade students.
- All results are confidential, and student participation is voluntary.
- Available in online format.
- Takes approximately 30 minutes to administer.
- In 2022, more than 90,000 students from over 300 schools participated in the INYS.

BENEFITS

- Receive a school corporation report combining student responses by grade level.
- Add up to 15 additional questions to get data on local issues (optional).
- Compare local corporation data with statewide and national results.
- Use data to inform school policies, gather data necessary for grant writing, and determine prevention efforts.
